Chief's Corner:

We cannot determine your blood quantum (degree of blood). It is very rare in this day and age for anyone to be able to determine the degree of blood they have simply because of the passing of time, inter-marriage and lack of records.

You can have your DNA TRACED, but it will only tell you the percentage of DNA markers you have of native blood, not the blood quantum.

I remind you of the Annual Membership Meeting October 8, 2011 and hoping for a larger attendance this year. This meeting is the most important of the year and it would benefit you greatly to attend.

Respectfully,

Panther

Once again I must clarify a couple of points which keep rearing their heads.

The SeCCI is a 501 C-3 non-profit educational organization and is neither State nor Federally recognized as a Tribe.

We DO NOT receive benefits nor monies from the State or Federal Government. We rely on donations only.

In 1997 we re-organized for the sole purpose of giving those Cherokee descendants, who for one reason or another cannot enroll with a State or Federally recognized Tribe, the opportunity to learn about their heritage and to meet with others to observe, learn and participate in the history, tradition and Ceremonies of their native ancestors.

We DO NOT research genealogy for members. You must do your own research and submit it with your application.
