## THE CHIEF'S CORNER:

**Osiyo, Brothers and Sisters,**

**Being one who dislikes "change", I have a hard time accepting it when it occurs. Several issues have brought about change over this past year. Some for the good, but most for the worse. And after my initial disappointment, I have to accept it and pray that everything will work out. Thank the Almighty on high, that my three kids who live in Thomas County, have come to my rescue (and that of the Tribe). They have jumped in to help and it keeps me from going "nuts".**

**We are in the process of re-juvenating the buildings on the Tribal Grounds. Do not be surprised at the improvements if you attend the October meeting. It will be a slow process as we can do it only a little at a time. My kids and I also have our own responsibilities and these things take time. We started on the museum first. It is about two thirds finished and looking great. So far, the "bat situation" is still under control. We will continue to monitor that situation.**

**There are several construction problems that have arisen, and we will eventually take care of those, but they may not be done by October. Just know we are working on the problems every week-end.**

**We must keep a positive attitude where change is concerned. And it is not easy when all the work is left up to a handful of people.**

**I am looking forward to October's meeting and praying for a good crowd. There are lots of issues to be discussed and decided on and we need everyone's input.**

**Prayers are needed.**
