We had several Bands and Clans who sent their \$25.00 yearly donation to SeCCI. We have one

Band who provided the donations necessary for the Talking Leaves. They made it their mission to keep the Talking Leaves in circulation. Several repairs were needed this year, and will continue for 2014.

All donations large and small help to keep SeCCI working to continue the culture and education for the future of Native Americans and most importantly our children. Please help us keep our vision by sending whatever amount you can afford.
